EXPERIENCE

Software Engineering Facilitator

Kenzie Academy | Indianapolis | 2020 - present

- Engaging up to 75 software engineering students two to three times a week with coding demonstrations using the MERN stack and Python built-in libraries
- Mentoring 30 students through one-on-ones, code reviews, and whiteboards
- Assisting senior instructor and fellow facilitators with curriculum development
- Teaching problem-solving skills such as elimination of possibilities, VS Code debugging, and best practices for clean code

Student Software Engineer & Coach

Kenzie Academy | Indianapolis | 2019 - 2020

- Developed and deployed front end web apps using HTML, CSS, JavaScript, RESTful APIs, and React/Redux
- Developed desktop apps, APIs, and backend servers with Python, Django, Express, MongoDB, Postgres, and Sqlite using Postman and VS Code
- Managed git workflows in Gitlab, GitHub, and Heroku
- Taught strategies regarding all of the above to fellow students as they developed code, using Zoom, VS Code LiveShare, and Slack

Business Manager

Gas City-Mill Township Public Library | IN | 2017 - 2019

- Acting Director while the library board searched for a new director: managed staff, prepared 2019 budget, and maintained library and grounds
- Provided staff and patrons with IT assistance
- Prepared budgets, paid bills, processed payroll, and prepared all library tax statements using MS Access, Excel, and Word
- Cataloged library materials and managed circulation reports using Polaris

Office Administrator

NearSpace Launch, Inc | Upland, IN | 2016 - 2017

- Supervised and mentored 4 interns in business admin, marketing, and web development
- Updated website using Wordpress and integrated custom plugins
- Invoiced customers, processed bills and payroll, prepared financial reports, and recorded transactions using Quickbooks
